## Recall Summary

**Belgium 01-31 July 2021:** Since late 2020, the Belgium Federal Agency for the Safety of the Food Chain (AFSCA), in conjunction with multiple companies, have been recalling numerous products containing sesame seeds imported from India which were found to exceed the maximum residual limit of a plant pesticide, ethylene oxide. The use of this substance as a plant pesticide is not authorised in Europe. Since then, the recalls have been extended to other spice-type products for the same reason. All full list of all recalled items can be found [here>](#)

**France 01-31 July 2021:** French health authorities were informed by their Belgian counterparts via the Rapid Alert System for Food and Feed (RASFF) of the presence of a chemical agent, ethylene oxide, at a level above the maximum regulatory limit in certain batches of imported sesame seeds in September 2020. DGCCRF checks have since shown that other products (psyllium, spices, etc.) were also likely to be contaminated. A full list of recalled items containing the implicated sesame seeds can be found [here>](#)

**Luxembourg 01-31 July 2021:** Following numerous recalls of products made with sesame seeds, psyllium and spices etc. contaminated with ethylene oxide, the Luxembourg food safety authorities have compiled a list of affected products which can be found [here>](#)

**Italy 01-31 July 2021:** A full list of recalled items containing the implicated sesame seeds, psyllium and spices etc. can be found [here>](#)
