

# SE24 New Management Team Members

---

19 JANUARY 2024

[www.se24.com](http://www.se24.com)

The **SE24** management team is drawn from the specialist sections of the police, armed forces, intelligence and professional consultancy sectors and has been involved in the commercial security market for over 20 years.

We understand the needs of our clients, both insured and uninsured, and aim to provide exactly the right level of service support to help our clients to be able to Prevent, Detect, Respond and Recover.

Recognising the ever-changing dynamics of risk management, **SE24** has now added three additional service lines to meet the needs of our clients:

- **Investigations** - Headed by Andy Wells
- **Training** - Headed by David Lloyd Griffiths
- **Technology and Intelligence** - Headed by Shaun Filer.

In addition to our existing experienced management team of Maldwyn Worsley-Tonks, Michael Haughey, Eric Smith and Jack Cloonan, the following new members have recently joined **SE24**:

### **Roy Sinclair – Head of Crisis Management**

Roy took over the Crisis Management Team in 2023. He brings over three decades of experience in UK Law Enforcement, including being Operational Lead for the Anti-Kidnap and Extortion Unit of the National Crime Agency (NCA), with commendations from the NCA and FBI for Kidnap and Ransom investigations and Training.

Roy has additional experience in Product Contamination and Cyber Attack cases, and he has delivered Kidnap and Extortion training to law enforcement agencies worldwide.

Roy heads the **SE24** response to Crisis Management, Security, Evacuations, Close Protection and supports Jack Cloonan for all Kidnap and Ransom, Extortion and Cyber cases. He is the project lead for all work for the National Farmers Union Mutual (NFUM).

### **Andy Wells – Head of Investigations**

With a 30-year career in law enforcement, Andy is an experienced investigations professional, risk management consultant and trainer. He has specialised in serious and organised crime and child protection cases, with experience in Europe, the US, South-East Asia and Pakistan in both the private and public sectors. He is an accredited financial investigator, surveillance and counter surveillance operator, kidnap commander and is qualified in vetting and covert investigations.

Andy heads up our new Investigation team and will specialise in investigations of all types: Surveillance, Business Intelligence, Due Diligence and Background Screening.

### **David Lloyd Griffiths – Head of Training**

David has over four decades of experience in law enforcement and is the former Tactical Coordinator for the National Crime Agency (NCA) Kidnap and Extortion Unit. He also has considerable experience in specialist investigations, cyber and product contamination cases. He has created and delivered bespoke training courses and crisis management exercises to law enforcement, commercial organisations and military partners worldwide, including on the ground in complex environments such as Afghanistan.

David heads up our new Training team, where he is an acknowledged and a highly sought after expert in the field. David will also be involved operationally in specialist cases involving Kidnap and Ransom, Extortion, Cyber, Product Contamination and NFUM cases.

## Shaun Filer – Head of Technology and Intelligence

Shaun is the Head of our new Technology and Intelligence team. Shaun provides all the technology and intelligence support through our partnership with PACE First and Riskline. This provides **SE24** with leading-edge intelligence and best in class mobile applications to support our clients with duty of care for their staff, especially those operating as lone workers or in hostile and complex environments.

Shaun has worked in the field of international risk management, disaster response, crisis and emergency management and close protection consulting for nearly 20 years, with experience in many high-profile international cases. He is an accomplished lecturer, public speaker, and writer.

Shaun heads up our new Technology and Intelligence services team. He is responsible for Technology, Intelligence and Mobile Applications. He also responds operationally to support Crisis Management, Security, Close Protection, Evacuations, Medical Evacuations and Training including HEAT Training.
